#8005 - 1000 WATT LIGHTBANK KIT:

- 1-#8124 24x32" Video Pro Plus One Lightbank
- 1-#3520 40 Degree Soft Fabric Egg Crate Grid
- 1-#9930 Triolet (#9930E for 220 v)
- 1-#80008005 Mathews Light Stand
- 1-#3960 44" x 9" x 9" Panel Duffle
- 1-#5510 1000 watt Ushio JT-1000 Bulb

NOTICE: The #9930 Triolet can accommodate bulbs up to 1000 watts. Bulbs over 1000 watts not recommended and are too long to be used in the #8124 24x32" Lightbank. The bulb that comes with your kit is tested and approved for the #8124 Lightbank. If a higher wattage bulb is used it may cause severe damage to the bulb, the internal baffle and the front screen. This type of misuse will void any warranty. Please call **CHIMERA**® directly at 888-444-1812 if you have any questions on the proper replacement bulbs to use.

FRONT SCREEN OPTIONS

This Lightbank comes equipped with a full diffusion front screen as a standard item. Instructions for use of the front screen are found in the "Lightbank Care and Use Instructions" card that comes with the Lightbank. Half and quarter-grid front screens are also available as options. Half-grid screens give a half stop less diffusion and the quarter-grid screens give one-fourth stop less diffusion than the full screen. Call you dealer or **CHIMERA** at 888-444-1812 to purchase additional front screens.

Item No.	Description	Price
4120	Small Full Diffusion Front Screen	Included with Kit
4122	Small 1/2 Grid Front Screen - optional	\$29.00
4124	Small 1/4 Grid Front Screen - optional	\$29.00

USING THE FABRIC GRID (Item 3520)

The Fabric Grid can be used to control light spill and direct it forward onto the subject. With the Fabric Grid in place, the beam angle of the light will be reduced from approximately 100 degrees to approximately 40 degrees. Unfold the Fabric Grid and hold it by the top corners in front of the Lightbank so that the Velcro™ strip around the Grid is facing the rear of the Lightbank. Align the Velcro™ strip on the Grid with the corresponding Velcro™ strip on the Lightbank. Press the two Velcro™ strips together. Attach the bottom edge next in the same manner, and then attach the sides. Repeat on the remaining three sides of the Lightbank.

PACKING YOUR LIGHT KIT FOR STORAGE OR TRAVEL

When packing the light for storage or transportation, remove the bulb from the fixture and place it in the storage box provided. Fold up the legs on the light stand and place the light fixture and stand in the duffel. It is not necessary to remove the light fixture from the stand.

CHIMERA 5-YEAR PROMISE

People who purchase a **CHIMERA** Lightbank, the world's professionally recognized best Lightbank, deserve the world's best Lightbank warranty!

At **CHIMERA**, we stand behind our Lightbanks, Speed Rings, and Light Control Accessories with a limited 5-year warranty against manufacturing defects in materials, workmanship, and color stability. If our products are not fully operational out of the box or if they fail to perform within five years from the date of purchase, return it for repair or replacement at no charge. Of course, **CHIMERA's** warranty cannot cover damage caused by accidents, improper care or use or the natural deterioration of materials over an extended period of abnormal use. This warranty can not be extended to expendables such as light bulbs and to certain OEM products.

Note: Triolet Light warranty is 1 year.
